- » [Utah's Energy and Employment Report](#)
- » [U.S. Energy Information Administration](#)

Submission

Applications shall be submitted to the Governor's Office of Energy Development (OED) by **April 15, 2021.**

Eligibility

Eligible applicants must currently be a 12th-grade student enrolled at any public or private high school in Utah or a first-year student pursuing a STEM undergraduate degree or energy-related technical certification at a Utah institute of higher learning.

Students must certify their intent to pursue a STEM course of study at a public or private Utah institution of higher learning or a license, certificate or skill training that supports the energy industry at a school that is part of the Utah System of Technical Colleges. Previous winners of the scholarship are not eligible to apply.

Notification

Students will be notified within 30 days of the application deadline if they were selected to receive a scholarship. Scholarship recipients must agree to the requirements and conditions of the scholarship.

Scholarship Disbursement and Reporting

Scholarship recipients will be formally announced at the annual Governor's Energy Summit. Attendance is mandatory for scholarship recipients. To obtain the scholarship, recipients must provide OED with proof of enrollment from their selected university or technical college. OED will then transfer funds through the recipient's sub-account to the selected institution.

University scholarships will be provided in two disbursements of funds. Technical college scholarships will be provided as a single disbursement.

Scholarships will be deposited in the Utah Educational Savings Plan program, also known as a 529 plan, in an OED master account. Within the first 60 days of the scholarship offer, recipients must do the following:

1. Indicate which Utah university or technical college they plan to attend and what subject they plan to study
2. Complete the required Form 106 Scholarship Account Agreement (provided by OED) to establish a sub-account

Deferment

Scholarship recipients may defer spending of their scholarship for up to two and half years or 30 months. Failure to use scholarships within two and half years or 30 months will result in a cancellation of the scholarship and refund to OED.
